

EDUCATION

- Vishwakarma Government Engineering College** **CPI: 7.97**
B.E (Information & Communication Technology) (**studying**) | **Graduation Year (2027)**

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Cybersecurity enthusiast (Security engineer) with a foundational understanding of cybersecurity principles and a strong passion for safeguarding digital infrastructures. Recently completed hands-on projects in the MERN (MongoDB, Express.js, React, Node.js) stack, developing full-stack web applications with a focus on secure coding practices, data privacy, and vulnerability management. Skilled in identifying, analyzing, and mitigating potential security risks in web applications, with a keen interest in ethical hacking and penetration testing.

PROJECTS

EduTrack: Student Performance Monitoring System | HTML, CSS, Python, Django, MySQL

- Developed a data-driven full-stack web app to track and visualize student academic performance.
- Built dashboards, authentication, and analytics modules using Django and Python.
- Applied data preprocessing, visualization (Pandas, Matplotlib), and backend data pipelines for analytics.
- Enhanced usability and scalability through optimized storage, responsive UI, and modular architecture.

CUDAS – Student Employability & Skill-Sharing Platform (SIH 2025)

- Developed CUDAS (MERN stack) for student skill sharing during SIH 2025.
- Built JWT authentication, role-based access, and REST APIs.
- Designed a responsive React UI with optimized MongoDB schemas.
- Applied OWASP security practices for secure and reliable performance.

QuickCourt – Online Sports Venue Booking Platform

- Created during the ODD Grand Finale Hackathon
- Enables users to book sports venues and time slots online.
- Built with a simple, responsive **UI** for quick reservations.
- Ensured secure login and smooth booking flow.

TECHNICAL SKILLS

Programming Languages: Python, C/C++, JavaScript, Java

Full-Stack & Deployment: HTML, CSS, JavaScript, React, Node.js, Express.js, Django

Databases: MySQL, MongoDB

Cloud & Tools: Git & GitHub, Jupyter Notebook, VS Code, PyCharm, IntelliJ

Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Probability & Statistics, Python for Data Science
